

DATASTEAD SOFTWARE

RTSP/RTMP/HTTP/ONVIF DirectShow Source Filter

FILTER INSTALLATION FOR THE TVIDEOGRABBER SDK

If the filter is to be used from the TVideoGrabber SDK, it is possible :

- either to install it as described below,
- either just copy the x86 and x64 folders to the folder where is located the .EXE of the application, so the binaries layout will be, e.g.:

```
c:\yourfolder\yourapplication.exe  
c:\yourfolder\x86\  
c:\yourfolder\x64\
```

where x86 and x64 contains the filter binaries.

FILTER INSTALLATION

1. installation using the auto-installer

DatasteadRTSPFilterInstaller.exe is an self-installer that can install or uninstall the filter automatically.

- on a 32bit PC, the x86 binaries are installed and registered.
- on a 64bit PC, both the x86 and x64 binaries are installed and registered.

To install the filter automatically from your own installer without user interaction, invoke DatasteadRTSPFilterInstaller.exe by passing /SILENT or /VERYSILENT (no splash screen) as command line parameter.

E.g.:

```
DatasteadRTSPFilterInstaller.exe /SILENT
```

```
DatasteadRTSPFilterInstaller.exe /VERYSILENT
```

2. installation using regsvr32.exe

Run regsvr32.exe as admin :

- install :

```
regsvr32.exe c:\folder\x86\DatasteadRtspSource_x86.ax  
regsvr32.exe c:\folder\x64\DatasteadRtspSource_x86.ax
```

- uninstall :

```
regsvr32.exe /U c:\folder\x86\DatasteadRtspSource_x86.ax  
regsvr32.exe /U c:\folder\x64\DatasteadRtspSource_x86.ax
```
