**INSTALL:**

Read the "install.txt" or run the installer located in the folder of this package corresponding to the development tool used.

**HELP:**

the help files are located in the "Help" folder of this package.

**THIRD-PARTY CODECS:**

For the file playback we recommend to install the [LAV filters](#).

They can be installed:

- either by running the LAVFilters-*n.nn*-Installer.exe
- either by copying the LAV Filters binaries to "x86" and "x64" folders located in the folder where is located the application.exe developed with TVideoGrabber
- either by copying the LAV Filters binaries to "x86" and "x64" folders located in a folder specified to the VideoGrabber.ExtraDLLPath property.

E.g. if the LAV filters binaries are copied to:

C:\LAVFilters\x86

C:\LAVFilters\x64

specify VideoGrabber.ExtraDLLPath = C:\LAVFilters
